DETAILED ACTION

This Application has been examined. The original claims 1-27 are pending. The examination results are as following.

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the “a first device”, “a second device”, “a first command”, “a second command”, “a control mechanism”, and “a mechanism” must be shown or the features canceled from the claim 1. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

2. The examiner objects the drawings filed 6/30/00 because of the problems recited by the draftsman (see the attached form PTO-948).

Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

3. The attempt to incorporate subject matter into this application by reference to the co-pending U.S. Patent applications described in the specification on lines 4-6 of page 8, lines 13-16 of page 11, and lines 29-32 of page 15 is improper because the Patent application numbers are missing. Corrections are required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-15 and 22-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

The claimed limitations: "a control mechanism", "a mechanism", "a first command", and "a second command" recited in claim 1 render the claims 1-15 indefinite, because the examiner is unclear what define said claimed limitations, and is unable to ascertain the metes and bounds of the claimed invention.

7. Claims 16-21 recite the limitation "said second computing device" in lines 11-12 of claim 16. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 2674

8. Claims 22-27 recite the limitations "said mouse device" and "said second computing device" in line 10 and in lines 14-15 of claim 22, respectively. There is insufficient antecedent basis for this limitation in the claim.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See form PTO-892.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HENRY N. TRAN whose telephone number is (703) 308-8410. The examiner can normally be reached on Mon - Fri from 8:00AM - 4:30PM.
